Curriculum

Course Action Summaries:

College of Arts and Sciences

GRMN 4113 prefix change to LL 4113. Ensures that this class, which is taught in English, does not satisfy the College of Arts and Sciences foreign-language requirement.

This College of Arts and Sciences course action was approved via an email vote.

Program Modifications:

College of Engineering, Architecture and Technology

Minor in Energy Engineering and Management (New)

New minor request

- Total credit hours: 15
- Reason for requested action: To provide students with a competitive advantage in a rapidly evolving workforce and support Oklahoma's economic resilience through energy diversification.

This was tabled during the Instruction Council meeting on January 15, 2026 for further discussion. It was re-proposed under the name Energy Engineering.

This College of Engineering, Architecture and Technology new program request with the name change to Minor in Energy Engineering was approved via an email vote.
